# TOURS

*All tours are subject to change.

San Francisco came to life with the gold rush, caused by the discovery of gold in the Sierra Nevada foothills. In the 1930s with the construction of the Bay Bridge and Golden Gate Bridge, the city was connected to the bay area, now known for its numerous high-tech companies. San Francisco has a unique character with very distinct neighborhoods, like Soma, Chinatown, Castro and Mission district. ASA is pleased to offer all meeting attendees a wonderful selection of tours.

Make the most of your visit to San Francisco and take one of the tours! Space is limited for these tours, and interested attendees are encouraged to register in advance. Registered participants wishing to add tours can add events to your itinerary through the Annual Meeting registration website. All tours are subject to change.
