THE FUTURE STARTS HERE

ANESTHESIOLOGY® 2018
SAN FRANCISCO
OCTOBER 13-17

Register now goanesthesiology.org
Dear Friends and Colleagues,

The ANESTHESIOLOGY annual meeting advances the knowledge of those serving the specialty, offers a community for anesthesiology providers to connect with each other, shares the latest scientific findings, and provides a platform for learning about the latest products and services the specialty has to offer. We couldn’t be more excited about the program we have prepared for you this year.

Join us at ANESTHESIOLOGY 2018 to engage with anesthesiology professionals and industry thought leaders, gain access to the latest science and world-class education, network with colleagues from around the world, and explore the beautiful City by the Bay. Whether it’s your first time attending or your tenth, we guarantee you’ll leave with helpful insights and new perspectives.

We kick off this year at the Opening Session with Josh Linkner, this year’s keynote speaker. Josh will open the meeting with a powerful message about innovation. His call to action is clear—to get ahead it’s crucial to be innovative and disruptive, a theme that will resonate throughout ANESTHESIOLOGY 2018. ASA will be making an exciting announcement during opening session. Mark your calendars now, you don’t want to miss this!

New this year is the Grand Opening Reception. It will immediately follow the Opening Session and feature a brunch tasting menu. While there, explore the 300+ exhibitors as they present their innovative products and services. During your breaks, visit the Connection Center to engage with exhibitors and thank our Industry and Annual Meeting Supporters, whose contributions provide much needed education, as well as advance our Society’s mission.

From lectures to hands-on workshops, scientific e-abstracts and seminars, attendees will have the opportunity to participate in a variety of experiences. Additional education sessions will feature diverse topics such as perioperative brain health, emerging technologies, immunity, the opioid crisis and professional burnout.

In addition to education, there will be ample time to network with nearly 14,000 colleagues, thought leaders and anesthesiology providers from more than 80 countries. One opportunity is at Connect for a Cause. Mingle with peers and enjoy a reception-style tasting menu while raising funds for ASA’s foundations.

There’s a reason ASA’s ANESTHESIOLOGY annual meeting is the largest educational conference serving our specialty. The insights gleaned over the course of four and a half days are invaluable. Secure your spot before July 24 and receive a discounted rate.

We look forward to connecting with you at ANESTHESIOLOGY 2018 in San Francisco this fall.

James D. Grant, M.D., M.B.A., FASA
ASA President

Sulpicio G. Soriano, M.D., FAAP, FASA
Chair, Committee on Annual Meeting Oversight

New this year is a special live workshop, “Critical Strategies for Managing Mass Casualties: A Live Demonstration,” that tests participants’ response to a real-life emergency. It’s vital that practitioners are prepared for a variety of possible scenarios. This demonstration will detail the most important things you need to know.
Join us in the **City by the Bay**.
The future starts here at ANESTHESIOLOGY 2018!

Dear friends and colleagues,

I’m excited to welcome you to the city I call home. San Francisco is always bustling with activity. When I’m at a conference, unwinding after a busy day is a must and it helps me reenergize for the next conference day. ANESTHESIOLOGY 2018 attendees will find a wide variety of offerings in San Francisco. A few of my favorites include:

**Golden Gate Bridge**: This suspension bridge spans Golden Gate, the mile-wide strait connecting the San Francisco Bay and the Pacific Ocean.

**Golden Gate National Recreation Area**: Nestled in the heart of San Francisco, this public park is 20 percent larger than Central Park in New York and includes the beautiful former Presidio military base and Crissy Field.

**Alcatraz Island**: Check out the prison where America’s most infamous inmates were housed and made their escape. Take the tour after dark for an unforgettable experience.

**Fisherman’s Wharf**: Grab a souvenir, sample clam chowder or check out sunbathing seals at one of the city’s busiest tourist areas.

You can find more of my favorite spots online at [goanesthesiology.org](http://goanesthesiology.org).

I hope you decide to join me in San Francisco for ANESTHESIOLOGY 2018. I promise you won’t be disappointed. The Moscone Center is nearing the completion of a $551 million expansion that will offer brand new flexible space and many other amenities. I’m excited that attendees will experience a portion of the expanded building.

Sincerely,

Neal Cohen, M.D., M.P.H., M.S.
Vice Dean and Professor, Department of Anesthesia and Perioperative Care
UCSF School of Medicine

---

**Hope for the Warriors® - Run For The Warriors® 5K Run/Walk**
Saturday, October 13 | 7 a.m.

Pack your running shoes and join us for the Hope For The Warriors® 5K Run/Walk. This event brings together ANESTHESIOLOGY 2018 attendees, exhibitors, local residents and military personnel to support wounded warriors and their families.

Hope For The Warriors was founded aboard Marine Corps Base Camp Lejeune in North Carolina in 2006 as we witnessed firsthand the effects of war on our families and communities. For the past 10 years Hope For The Warriors has been dedicated to serving those who have served. We provide a full cycle of care to restore self, family and hope to post-9/11 service members, their families and families of the fallen. Details for the race route will be published at [goanesthesiology.org](http://goanesthesiology.org) when they are available.

---

**ASA Resource Center**
Saturday, October 13 – Tuesday, October 16

Stop by and discover how ASA can help you address quality reporting needs, discover the Perioperative Surgical Home model of care, understand implementation resources, MACRA, meet your group’s educational needs and more. While there, learn about the benefits of ASA membership, meet our staff and pick up some ASA logo wear.
Keynote Speaker

Josh Linkner

Saturday, October 13 | 9 – 10:30 a.m.

Five-time tech entrepreneur, hyper-growth CEO, two-time New York Times best-selling author, venture capitalist and keynote speaker on a mission to drive creativity, innovation and reinvention.

As a five-time successful tech entrepreneur and investor in dozens of startups, Josh Linkner has seen thousands of companies loaded with creative buzz and big ideas. How is it that some harness their imagination to create game-changing drivers of growth and innovation while others miss the mark? The answer: the best companies have a systematic process to focus their team’s creativity into practical outputs, something Linkner discovered by founding and building companies that sold collectively for more than $200 million. As a professional-level jazz guitarist, Linkner blends the improvisational qualities of a jazz ensemble with bleeding-edge business savvy to bring a completely fresh perspective on unleashing creativity in the organization. His inspiring presentation delivers practical tools that can be used immediately to increase creative output and deliver bottom-line results.

Attendees will discover how to:

• Build a culture that celebrates fresh thinking and embraces new ideas
• Challenge assumptions of conventional wisdom and, in doing so, build the courage to foster responsible risk-taking
• Develop “every day” creativity and break free from the biggest creativity blockers

Visit goanesthesiology.org to view Josh Linkner’s biography.

A Global Perspective

Engage with speakers from around the world to learn about the latest in anesthesiology while joining forces to unite the specialty on a global scale. Societies include:

- Brazilian Society of Anesthesiology (SBA)
- São Paulo State Society of Anesthesiologists (SAESP)
- Chinese Society of Anesthesiology (CSA)
- European Society of Anaesthesiology (ESA)
- World Federation of Societies of Anaesthesiology (WFSA)
- Korean Society of Anesthesiologists (KSA)
- Mexican Federation of Colleges of Anesthesiology (FMCA)

Global Scholars

The ASA Charitable Foundation Global Scholars Program supports young leaders in the specialty from low- and lower-middle income countries who want to participate in ANESTHESIOLOGY 2018. This program supports the professional development of young leaders with fewer resources and the development of anesthesiology overseas. The 2018 scholars will present posters on Saturday, October 13, as part of the Medically Challenging Cases, focusing on the practice of anesthesiology and patient safety in very different environments.

Affiliated Subspecialty Society Pavilion

Connect with affiliated subspecialty societies and learn more about their meetings, activities and membership opportunities. As of May 24, participants include:

- AACD: Association of Anesthesia Clinical Directors
- ASRA: American Society of Regional Anesthesia and Pain Medicine
- SAMBA: Society for Ambulatory Anesthesia
- SCA: Society of Cardiovascular Anesthesiologists
- SEA: Society for Education in Anesthesia
- SOAP: Society for Obstetric Anesthesia and Perinatology
- SOCCA: Society of Critical Care of Anesthesiologists

INTERNATIONAL FORUM ON PERIOPERATIVE SAFETY & QUALITY

October 12 | Hilton San Francisco Union Square | IPPQ.ORG

Arrive early to ANESTHESIOLOGY 2018 and join us for the International Forum on Perioperative Safety & Quality (ISQ) led by international visionaries and leaders. Discover innovative strategies for patient safety and quality improvement that will help advance the health of individuals and populations. The ISQ supports and energizes the movement for health care improvement while bringing together health care leaders and practitioners committed to improving outcomes for patients and communities.
Ellison C. Pierce Lecture: Sharpening the Vision to Do No Harm
Saturday, October 13 | 1:15 – 2:15 p.m.
Presented by: Robert A. Caplan, M.D.
With the creation of APSF, Dr. Pierce set forth a challenging vision — no patient shall be harmed by anesthesia. This 2018 E.C. Pierce Patient Safety Memorial Lecture will sharpen Dr. Pierce’s vision by looking at the relationship between zero-defects and source inspection. Attendees will discover novel ways that all members of our community can work together to make Dr. Pierce’s vision a reality.

Society for Airway Management Ovassapian Lecture: Extubation and Re-Intubation of the Difficult Airway
Sunday, October 14 | 7:45 – 8:45 a.m.
Presented by: Richard M. Cooper, B.Sc., M.Sc., M.D., FRCPC
Complications following tracheal extubation are common ranging from the self-limiting to the devastating. This lecture will focus on the identification of higher-risk extubations, strategies to avoid reintubation and to facilitate this should it prove necessary.

Wood Library-Museum of Anesthesiology Lewis H. Wright Lecture: The History of Airway Management Through the Ages
Sunday, October 14 | 8 – 9:15 a.m.
Presented by: Kathryn E. McGoldrick, M.D., FACA
Ensuring airway patency was part of resuscitation efforts centuries before becoming a basic tenet of general anesthesia. This lecture will trace the gradual development of approaches to airway management from antiquity to the middle of the 20th century with emphasis on the events, influences and individuals catalyzing progress.

Emery A. Rovenstine Memorial Lecture: Mentoring the Next Generation of Leaders
Monday, October 15 | 8 – 9:15 a.m.
Presented by: John M. Zerwas, M.D.
In the world of physician leaders, the question often posed is, how did that person achieve his or her leadership skills and status. One of the great mentors and leaders of our specialty was Emery Andrew Rovenstine. This presentation will reflect on the unique qualities and characteristics of effective mentoring versus leadership, and the role that each of us as physicians can play in defining our next generation of great leaders.

John W. Severinghaus Lecture on Translational Science: The Future Starts Here, With Cues From the Past
Tuesday, October 16 | 11 a.m. – Noon
Presented by: Karen B. Domino, M.D., M.P.H.
This lecture will link past outcome research with new methods to advance patient safety and quality research, and translate findings into practice to shape the future of perioperative care.

Governance
All governance, committee and caucus meetings will be held at the San Francisco Marriott Marquis at 780 Mission Street, near the Moscone Center. The House of Delegates will meet Sunday, October 14, and Wednesday, October 17, in Moscone West Building. For details, visit goanesthesiology.org.
**History Panel: Unusual Historical Anesthetics: From Joseph Clover Through the Jungles of World War II to Gorillas**  
Sunday, October 14 | 2:15 – 4:15 p.m.  
**Presented by:** Douglas R. Bacon, M.D., M.A.  
This panel traces unusual historical anesthetics by discussing the work of Joseph Clover, Will Rogers’ appreciation of his anesthetic, the use of carbon dioxide as an inhalation agent, the use of continuous spinal to decrease mortality and the unusual conditions needed for anesthetizing gorillas.

**Celebration of Research**  
Monday, October 15 | 9:30 – 11 a.m.  
**Presented by:** Evan D. Kharasch, M.D., Ph.D.  
The Celebration of Research will take place after the Emery A. Rovenstine Memorial Lecture on Monday, October 15. The recipients of the 2018 ASA Excellence in Research Award and the James E. Cottrell, M.D. Presidential Scholar Award will present brief lectures on their research accomplishments. The Excellence in Mentoring Award recipient from the Academy of Research Mentors in Anesthesiology, and the winner of the Resident Research Essay contest will be announced, and there will be a brief update on FAER activities. Don’t miss out on this exciting session during the ANESTHESIOLOGY 2018 annual meeting to see your peers being honored.

**FAER-Helrich Lecture: Found in Translation: MASKs, Coffin Nails and Other Curiosities**  
Monday, October 15 | 1:45 – 2:45 p.m.  
**Presented by:** David O. Warner, M.D.  
Translational research aims to use science to guide changes in healthcare policy and practice. This session will highlight both the challenges and benefits of translational research, illustrated by specific examples of important translational problems in perioperative medicine.

**Wood Library-Museum of Anesthesiology Patrick Sim Forum on the History of Anesthesiology: True Tales: Using Storytelling to Teach Anesthesia, History and Professionalism**  
Monday, October 15 | 2 – 4 p.m.  
**Presented by:** David B. Waisel, M.D.  
Storytelling has a longstanding tradition of being used to build communities with shared memories, knowledge, visions and goals. We will discuss uses, techniques and strategies of successful storytelling, as well as present examples.
Overall Learning Objectives
At the conclusion of this activity, participants should be able to:
• Assess the potential applications of emerging scientific advances that affect the practice of anesthesia
• Integrate technical knowledge about state-of-the-art procedures, advanced therapeutic agents and medical device uses into practice
• Apply contemporary practice management skills and knowledge of regulatory issues to the efficient and safe delivery of patient care
• Translate expanded knowledge into improvements in practice; short-, medium- and long-term patient outcomes; and patient satisfaction

Accreditation and Designation Statements
The American Society of Anesthesiologists is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The American Society of Anesthesiologists designates this live activity for a maximum of 35 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

This program has been prior approved by the American Association of Nurse Anesthetists for 35.50 Class A CE credits; Code Number 1036273; Expiration Date 10/17/2018. AANA is an approved provider by the California Board of Registered Nursing, CEP #10862.

This continuing nursing education activity was approved by Montana Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

Criteria for successful completion of the activity include contact hours awarded based on the number of minutes participating in the activity; completion of evaluation forms for each session attended, as well as the overall meeting evaluation.

The American Society of Anesthesiologists is authorized to award 25 hours of pre-approved ACHE Qualified Education credit for this program toward advancement, or recertification, in the American College of Healthcare Executives. Participants in this program who wish to have the continuing education hours applied toward ACHE Qualified Education credit must self-report their participation. To self-report, participants must log into their MyACHE account and select “My Education Credit” to log hours earned.

Attend select Educational Sessions to earn credit toward MOCA®.

ANESTHESIOLOGY 2018 offers several opportunities to help fulfill your Maintenance of Certification in Anesthesiology (MOCA®) requirements. Sessions marked with the MOCA icon will count toward Part II Patient Safety or Part IV Improvement in Medical Practice requirements. Look for this icon to identify designated sessions.

Please note: To claim credit for MOCA®, attendees are required to attend the entire session and complete the evaluation form when claiming credit.

12 Clinical Tracks
Ambulatory anesthesia
Cardiac anesthesia
Critical care medicine
Geriatric anesthesia
Fundamentals of anesthesia
Neuroanesthesia
Obstetric anesthesia
Pain management
Pediatric anesthesia
Perioperative medicine
Professional issues
Regional anesthesia and acute pain

Secure your best and brightest future

The ANESTHESIOLOGY annual meeting has been reinvented to better meet the needs of medical students, residents and fellows. We’re excited to share with you the following ways you can make the most of your time:

Kick off ANESTHESIOLOGY 2018 at the Opening Session and explore lessons your peers have learned on the way to practice.

Have questions about doing a fellowship program or want some guidance on your career path? Be sure to attend our new fellowships and career paths panel. You’ll have the opportunity to engage with physician anesthesiologists who have dedicated their careers to cardiology, critical care, pain medicine and pediatrics.

That’s not all. Take care of your networking and educational needs as well!

Grow your professional network
We know how important networking is to further your career, so we have set up designated events to ensure you have adequate time to make those valuable connections.

Welcome Reception: Engage with your peers, early career physicians, ASA leadership, industry and annual meeting supporters while enjoying beverages and delicious hors d’oeuvres.

Meet and Greet with Residency Programs: An exclusive opportunity for third and fourth year medical students! Program directors and residents from across the country will be on hand to showcase their programs and answer your questions.

Education that meets YOUR needs

Medical Students
Attend interactive workshops and informative educational sessions that will share the latest information to round out your education. We’ll help you:
• Advance your clinical skills
• Understand what it’s like to be a resident or fellow
• Identify how to find your ideal residency
• Manage your loan debt
• Understand if you want a future in a private or academic practice setting
• Grow your professional anesthesiology network

Residents & Fellows
Deepen your understanding about what’s affecting the specialty and gain access to exclusive resources and thought leaders in the specialty. We’ll share:
• Major issues impacting anesthesia
• How you can get involved in advocacy efforts to help secure the future of the specialty
• Global health opportunities
• Strategies for written board prep
• Tips for job hunting
• How to smoothly transition to practice

You asked, we listened. New this year! We’ve identified 50+ ANESTHESIOLOGY educational sessions that would be most beneficial for you to attend, such as:
• Situational Awareness and Crisis Management: Strategies to Improve Patient Safety in Anesthesia Practice
• Hot Topics and Controversies in Acute Pain Management
• Crash Course in Obstetric Anesthesia for the Non-Obstetric Anesthesiologist
• Trauma Anesthesiology: Perioperative Management of the Bleeding and Head Injured Patient

Visit goanesthesiology.org for the full listing.
Connection Center
A product, services and solutions showcase

Saturday, October 13 | 10:30 a.m. – 4 p.m.
Sunday, October 14 | 9 a.m. – 4 p.m.
Monday, October 15 | 9 a.m. – 1 p.m.

More than 300 industry leaders will be on hand to introduce you to the very latest technology, services and research in our field.

---

Grand Opening Reception
Saturday, October 13 | 10:30 – 11:50 a.m.
Join your colleagues immediately following Opening Session. Network with our industry partners and sample San Francisco brunch fare all while exploring the latest industry has to offer.

Simul8 Challenge – Put your anesthesia knowledge to the test by taking part in the virtual Simul8 Challenge, powered by Airway Ex! Compete with your peers on site in up to eight video games for daily prizes. See who will be crowned the Simul8 Challenge Champion and win the grand prize.

Smart Stages – Stop by the Smart Stage and take part in a MED Talk about the latest issues and hot topics in anesthesia. MED Talks are presented by our industry partners.

---

How do ASA members and conference attendees benefit from the financial contributions of our Corporate Supporters?

Through Corporate Support, ASA is able to provide state-of-the-art, progressive education programs. Come to the Connection Center at ANESTHESIOLOGY 2018 to meet and engage with these organizations:
Step 1 Identify educational sessions you want to attend.

Select Session Search from the Education drop down to access the Educational Program Planner.

Search by:
- Day
- Presenter
- Track

Explore educational sessions, Scientific Abstracts and Medically Challenging Cases to familiarize yourself with the offerings before accessing the registration site.

Step 2 Register

Members use your ASA username and password OR create an account.

Nonmembers use your ASA username and password OR create an account.

Review and update your contact information.

International attendees can request an invitation letter to submit during the visa application process.

Step 3 Select from a variety of sessions and events to add to your itinerary.

Confirm your session details.

Step 4

Make sure your details are displayed accurately for your badge.

Additional Services

ASA offers additional services during registration to make traveling easy.

- Save $100 on registration when you book your hotel room through onPeak, ASA’s official housing partner.
- Book your flight and save on airfare with ATC Travel (domestic) or ASA IGH (international).
- Reserve your transfer services to and from the airport.
**Meet us in the City by the Bay.**

Visit [goanesthesiology.org](http://goanesthesiology.org) for updates and to see new information as it becomes available. Note: Rates are subject to change at the discretion of ASA.

Spouse/Guest Categories include access to the Connection Center (exhibit hall) and all networking events held therein. These categories are not eligible for credits, and do not receive access to the ASA Education Center.

*This category cannot be purchased by sponsors and must be paid by guests directly.*
Hotel & Travel

Moscone Center
747 Howard St., San Francisco, CA 94103

Governance Hotel
San Francisco Marriott Marquis | 780 Mission St., San Francisco, CA 94103

Hotel Accommodations
Through the travel experts at onPeak, ASA’s official hotel partner, rooms at the special ANESTHESIOLOGY 2018 group rate are limited and available on a first-come, first-served basis. Book early for the best hotel selection and price. For hotel options, visit goanesthesiology.org or call (866) 940-0942 between 8 a.m. and 6 p.m. CST.

International attendees are invited to book travel through ASA
International Group Housing – ASA’s official international travel provider. ASA IGH is a one-stop shop for your travel needs and offers travelers all-inclusive packages that include hotel, airport transfers, baggage handling and more. Learn more at goanesthesiology.org/international.

Save $100 USD on registration when you book using onPeak (domestic) or ASA IGH (international) – ASA’s official housing partners. Offer expires September 12.

If attendees book housing within the official ASA hotel block and later cancel their reservation, the additional $100 USD fee will be automatically charged.

Please direct any questions to annmtg@asahq.org.

Domestic Air Travel
ASA’s official travel service, ATC Travel Management, helps you easily book your airline reservations. ATC offers cost-efficient travel and excellent customer service. Call (800) 755-3895, 8:30 a.m. – 7 p.m. EST, Monday – Friday and provide the Travel Authorization Code (202295) when making your reservation.

Nearest Area Airport
San Francisco International Airport (SFO) 
Approximately 13 miles (20 minutes) from the San Francisco International Airport to downtown San Francisco. Estimated taxi fare: $45 – $74 (one way).

*Consider using alternative transportation (Lyft or Uber)

United Airlines is offering 3% off any applicable published fares when traveling to San Francisco. Visit united.com and use ZCODE: ZFA8 and Agreement Code 919636 to receive the discount. Call (800) 426-1122, 7 a.m. – 9 p.m. CT, Monday – Friday; 8 a.m. – 6 p.m. (CT), Saturday – Sunday, and refer to the offer code. A service fee will apply for phone reservations.

Delta Airlines is offering 3% off any applicable published fares when traveling to San Francisco. Visit Delta.com and enter Meeting Event Code (NMS4B) to receive the discount. Call (800) 328-1111, 7:30 a.m. – 5:30 p.m. (CT), Monday – Friday, and refer to the Meeting Event Code. A service fee will apply for phone reservations.
