

PARTICIPATION OPTIONS

	Core Collaborative	Advanced Cohort	Advanced Cohort with Bundles Payment Add-on Option*
National meetings (semiannual)	x	x	x
Educational webinars (monthly)	x	x	x
Member sharing webinars (monthly)	x	x	x
Access to online community	x	x	x
Collaborative newsletters (biweekly)	x	x	x
Access to clinical protocols repository	x	x	x
Access to implementation best practices and tools	x	x	x
Access to payment model resources and templates	x	x	x
Access to SMEs in pertinent topics	x	x	x
Continuing educational credits	x	x	x
Meetings with a dedicated staff member to provide support	Up to 4 per year	Up to 8 per year	Up to 18 per year***
Focused performance optimization sprints and webinars		2 per year	2 per year
Access to an Advanced Collaborative-only section of the collaboration community		x	x
Coaching for publication strategy		x	x
Coaching to help you prepare to monetize the PSH		x	x
Access to the economic impact of bundles participation analysis tool**		x	x
Access to the bundled payment intelligence platform			x
Bundles payment benchmarking reports			x

*Only Advanced Cohort participants can purchase this add-on.

**Included in the Advanced Cohort offerings. Available for purchase by Core Collaborative participants.

***10 of these meetings will be dedicated to the work on the bundles payment add-on option.

Past PSH Learning Collaborative Outcomes

A regional medical center reported savings of \$1.5 million in the first year.

A pediatric institution reduced a 30-day readmission rate from 8.33 percent to 7.5 percent for laryngeal cleft patients and reduced the average cost of these patients by approximately 20 percent.

An academic center saved an average of \$10,000 per cystectomy case compared to pre-PSH cases and reduced length of stay for these cases from 10.5 days to approximately six days, creating space in the organization for open beds and additional new revenue.

A major health system improved room turnover by approximately eight minutes, reduced length of stay for hip/knee arthroplasty cases from an average of 110 hours to 51 hours, and has cut in half the readmission rate for hip/knee arthroplasty cases.

Did you know...

CMS has included both ASA's PSH Improvement Activities (IA) under the 2018 Merit-based Incentive Payment Systems (MIPS). Acceptance of the model by CMS in the 2018 MIPS Improvement Activities will automatically allow physicians participating in a PSH pilot the ability to earn credit in the Improvement Activity category, one of four categories physicians can show they provided high quality, efficient care.

American Society of Anesthesiologists®

Join us for the PSH Learning Collaborative 2020

The PSH Learning Collaborative brings together leading organizations from across the country to learn from each other and subject matter experts about how to achieve the triple aim: increased value, improved patient outcomes and reduced costs. The upcoming collaborative will assist facilities in PSH pilot implementation, optimization and expansion into new service lines or system-wide conversion.

American Society of Anesthesiologists® and Premier, Inc. will launch the PSH Learning Collaborative 2020 on May 1, 2018 that will run for two years.

Facilities are all struggling to make the change to value-based payment. The upcoming collaborative will also help facilities overcome the challenges they face with Medicare Access and CHIP Reauthorization Act (MACRA), Merit-based Incentive Payment System (MIPS), Advanced Alternative Payment Models (APMs) and participating in mandatory and elective bundles. This effort is important because value-based payment is for public payers and is quickly being adopted by private payers as well.

Two participation options will be offered to meet the unique needs of organizations interested in health care redesign.

CORE COLLABORATIVE

Designed for organizations interested in learning more about the PSH model of care and those in the early stages of implementing a PSH pilot. Participants of the core collaborative should expect to gain access to resources and tools that focus on:

- PSH implementation
- Perioperative care redesign in the PSH
- Results of self-assessment tools, including:
 - MACRA, MIPS and APMs Impact
 - Cost of implementing a PSH pilot
 - Financial and non-financial outcomes of implementing a PSH pilot
 - Readiness assessment
- Leadership training
 - How to track data
 - How to demonstrate value
 - How to establish trust
 - How to establish meaningful goals
- PSH health care landscape
- Assistance to plan and/or implement a PSH pilot

ADVANCED COHORT

Created for organizations that are looking to optimize or expand their PSH pilot. While receiving all the benefits of the Core Collaborative, the Advanced Cohort will also gain exclusive information about:

- Optimization of a PSH pilot
- System-wide conversion
- Taking advantage of voluntary bundles
- Expansion of a PSH pilot to new service lines
- Advanced leadership training
 - Change management
 - Communication beyond your peers and department
 - The difference between collaboration and cooperation
- Calculating the impact of bundles

In addition to these participation categories, the PSH Learning Collaborative recognizes the need to support its Advanced Cohort members as they participate in various public and private bundle programs. As such, a new add-on option is being offered.

NEW! BUNDLES PAYMENT ADD-ON OPTION

The Bundles Payment Add-on option is exclusively available to Advanced Cohort participants. The add-on supports institutions in identifying areas to effectively improve quality, share in savings, redesign care delivery and reduce costs. **Limited time offer** – the first five facilities who apply to the Bundles Payment Add-on Option will receive a heavily discounted introductory price.
