

American Society of
Anesthesiologists™

March 2, 2022

Professor Doctor Sergii Dubrov
President, Ukrainian Society of Anaesthesiologists
Kyiv, Ukraine

Dear Prof. Dr. Dubrov:

On behalf of the American Society of Anesthesiologists (ASA), we express our support and solidarity with the Ukrainian Society of Anaesthesiologists, and the people of Ukraine. We are shocked at the unprovoked attack on your country and truly distraught by the loss of innocent lives. At the same time, we are inspired by the heroic stories coming out of your nation, the resiliency of the Ukrainian people, and the dedication of your members to saving lives, even in the face of extreme danger.

ASA will be sharing on our website and social media channels a list of organizations providing financial or humanitarian relief/aid to the people of Ukraine. We welcome suggestions on how we can further support your members and the people of Ukraine now and in the coming days and weeks.

Remain steadfast, stay strong, and know that our thoughts and prayers are with you.

In solidarity,

Randall M. Clark, MD, FASA
President
The American Society of Anesthesiologists
