Jeffrey B. Cooper, Ph.D.

Jeffrey B. Cooper, Ph.D., is Professor of Anesthesia at Harvard Medical School and Massachusetts General Hospital, and the Founder and Executive Director of the Center for Medical Simulation in Boston.

Dr. Cooper’s landmark research in medical errors in the 1970s helped establish the field now called patient safety. He is a cofounder of the Anesthesia Patient Safety Foundation (APSF) and has been on the Board of Advisors of the National Patient Safety Foundation since its founding. Among Dr. Cooper’s honors for his work in patient safety are the 2003 John M. Eisenberg Award for Lifetime Achievement in Patient Safety from the National Quality Forum and the Joint Commission on Accreditation of Healthcare Organizations, the 2004 Lifetime Achievement Award from the American Academy of Clinical Engineering and the 2013 Distinguished Service Award of the American Society of Anesthesiologists, the first non-M.D. to receive the honor.
