ASA® Membership Matters to your patients, your practice and your specialty
WHO WE ARE

The American Society of Anesthesiologists® (ASA®) is the premier organization for anesthesia professionals. ASA's membership represents more than 52,000 anesthesiologists and care team members from around the world. Members gain access to highly valued publications, professional development resources, quality improvement and reporting, and medical education aimed at improving patient care. ASA leads through innovation in patient safety, clinical care, advocacy, education and research.

Our Mission
Advancing the practice and securing the future.

GET MORE FROM YOUR MEMBERSHIP

Benefits for your practice
Your ASA benefits extend beyond you to those who support your practice and other care team members. ASA offers valuable billing and coding resources, clinical education for care team members and access for the entire team to the National Anesthesia Clinical Outcomes Registry. ASA Quality Reporting, to help you meet PQRS reporting requirements, is included in your membership and all of your eligible providers can participate with you for a low fee.

Get your team involved
ASA has membership opportunities for all anesthesia providers. Your team benefits by keeping everyone updated and informed about the latest news in the profession, clinical education and low-cost access to CME meetings and products. Show your support of ASA and our common mission by becoming a 100% ASA member practice.

"ASA is not an organization separate from anesthesiologists. We - physician anesthesiologists - ARE the ASA and your membership means more now than ever before! The essential work to advance our specialty and protect our future cannot be accomplished without ASA and the state component societies and our collective membership supporting them both. Together we can reach our greatest potential to create the brightest future for our specialty and the patients we serve."

Jeffrey Plagenhoef, M.D.
President
MEMBERSHIP CATEGORIES

ASA offers the following membership categories.

Active Member
Physician anesthesiologists practicing in the U.S.
• First year in practice Active Members receive an 85% discount on member dues
• Physician anesthesiologists in service of U.S. Government receive a 50% discount on membership dues (Veterans’ Administration, U.S. Public Health Service and Indian Health Service)

Affiliate Member
• Physician anesthesiologists residing outside the U.S.
• Ph.D. research scientists studying anesthesiology
• Physicians not in clinical practice of anesthesiology

Resident/Fellow Member
• U.S. eligibility: Physician in full-time training in an anesthesiology residency program accredited by the Accreditation Council for Graduate Medical Education (ACGME) or the American Osteopathic Association
• International eligibility: Physician in full-time training in an anesthesiology training program outside the U.S. and its territories who is a graduate of a medical school approved by the Liaison Committee on Medical Education or the American Osteopathic Association, or of a medical school listed in the World Directory of Medical Schools

Medical Student Member
• Individual in full-time training in an approved U.S. or international medical school

Certified Anesthesiologist Assistant Member
• Certified Anesthesiologist Assistant (CAA) who is a Fellow member in good standing of the American Academy of Anesthesiologist Assistants (AAAA)

Educational Member
A non-physician provider of anesthesia care excluding anesthesiologist assistants. Providers include but are not limited to the following:
• Certified Registered Nurse Anesthetists
• Dentists (D.D.S.)
• Pharmacists (Pharm.D.)
• Veterinarians (D.V.M.)
• Practice administrators and key business executives

Educational Student Member
• Anesthesiologist Assistant (AA) students
• Nurse Anesthetist (NA) students

Retired Member
• Active or Affiliate member for 20 or more years and 70 years of age, OR
• 20 or more years of membership and fully retired from professional practice. Dues are waived for retired members.

MEMBER BENEFITS

ASA provides members with a wealth of education, professional development, practice management and quality improvement resources to keep you at the forefront of the profession. ASA is committed to helping you excel in the profession and deliver the best patient care. Your patients and your practice benefit from your expertise, and ASA is here to support you as you advance in the specialty.

All members receive:

✓ Anesthesiology® journal and access to the journal website – anesthesiology.org
✓ ASA Monitor® – this monthly newsletter containing up-to-date information about Society activities and other areas of interest – asamonitor.org
✓ ASAP weekly member exclusive e-newsletter
✓ Discounted pricing on educational products such as ACE, SEE and PULSE – ASA best sellers
✓ Discounted pricing on meeting registrations
✓ Access to practice management and quality improvement resources to help you strengthen operations and patient outcomes
✓ Journal CME credits ($120 value)
✓ NACOR® registry participation ($1,000 value)
✓ ASA® Quality Reporting ($150 value) – available at the practice level
✓ Access to the ASA Member Directory
✓ Resources to educate the public and the media about the critical role of physician anesthesiologists

ASA COMPONENT SOCIETIES

ASA state component societies are separately incorporated not-for-profit organizations. Their purpose is to strengthen and support ASA’s mission by providing local continuing education, leadership development and advocacy support. State component societies focus on important issues including maximizing payment and promoting advocacy initiatives favorable to the profession and the patients it serves.

In addition to component society leadership opportunities, the ASA House of Delegates includes directors, alternate directors, delegates and alternate delegates of the component societies. There are 50 state societies as well as District of Columbia, Puerto Rico, Academic, Uniformed Services, Resident, and Medical Student Components. Component society membership is a requirement of ASA membership for Active, Affiliate and Resident members. Other member types are welcome to join component societies based on individual society bylaws and membership requirements.

State component societies are extremely active with advocacy efforts to: ensure patient-centered, physician led care; authorize licensure for certified anesthesiologist assistants, require health care professionals identify both themselves and the license they hold to patients; and oppose insurance industry efforts to prohibit balanced billing.
MEDICAL STUDENTS, RESIDENTS & FELLOWS

ASA supports members throughout every stage of their careers.

Medical Students Benefits

• Medical Student Component membership
• Deeply discounted rates on educational resources and meeting registrations
• Complimentary ANESTHESIOLOGY® annual meeting registration ($150 value)
• Research and grant opportunities through ASA’s related organizations such as FAER
• Medical Student Newsletter – written by medical students for medical students
• Multiple opportunities to get involved and gain leadership experience by becoming an officer of the ASA Medical Student Component or an adjunct member to an ASA committee

Residents & Fellows Benefits

• Resident Component membership
• Deeply discounted rates on educational resources and meeting registrations
• Complimentary practice management resources
  • Reduced PRACTICE MANAGEMENT™ registration
  • Access to ASA Emerging Leaders Scholarship Opportunities
• Complimentary ANESTHESIOLOGY annual meeting registration ($150 value)
• Quarterly Resident Newsletter – written by residents for residents
• Authorship in the ASA Monitor® or Resident Newsletter
• Research and grant opportunities through ASA’s related organizations such as FAER
• Multiple opportunities to get involved and gain leadership experience by becoming an officer of the ASA Resident Component or an adjunct member to an ASA committee

CAREER RESOURCES

ASA Career Center
If you are looking for a new job opportunity, visit the ASA Career Center. Your CV and profile are only viewable to potential employers. Browse not only physician anesthesiologist job postings but also postings for alternative anesthesia providers. careers.asahq.org
GET INVOLVED

Enrich your membership experience by participating in the activities and work of ASA and the component societies.

You benefit through opportunities to:
• Lead
• Teach
• Collaborate
• Publish
• Develop clinical guidelines
• Develop educational content
• Bring your knowledge and skills to underserved areas of the world and the U.S.

Governance
ASA has a multi-tiered governance structure and each body serves important functions.

Committees
ASA has more than 90 committees that help accomplish the objectives of the Society. Committees create valuable resources and tools for members as well as write updated Standards, Guidelines and Statements. Committee nominations are typically made in November, December and January each year. Find the committee that speaks to your passion and get involved. Nurture your network, develop your curriculum vitae and make a difference in the specialty!

ASA MEMBERSHIP MATTERS...

The endless changes in health care can make the environment challenging to navigate. ASA is here to ensure you are prepared to face those challenges. You can rely on ASA to provide practical solutions that help you meet today’s needs and prepare for tomorrow. ASA is committed to ensuring a successful future for you and the specialty.

ASA Membership Matters to:

- **Your Patients** – ASA is your quintessential resource for the highest quality anesthesia-related medical education and clinical information. Robust member benefits and tools help you deliver safe, quality care to your patients time and time again.

- **Your Practice** – A vast array of practice management and quality measurement resources are available to help you understand how best to improve operational efficiency and use quality data to improve patient outcomes.

- **Your Specialty** – ASA engages in public education efforts to effectively communicate the important role of physician-led care in patient safety. By working with state and federal legislators, ASA protects the interests of physician anesthesiologists, including scope of practice and delivery of care.
Your Patients

Provide the highest quality care to your patients by staying informed about the latest developments and scientific research in the specialty and through quality education.

CLINICAL AND PROFESSIONAL INFORMATION

Whether your interest is in the latest research breakthroughs or regulatory discussions on Capitol Hill, ASA keeps you informed - sharing information in a variety of formats that meet your busy lifestyle.

- **ASAP**: Delivered weekly to members, this e-newsletter provides the most current information.

- **ASA Monitor**: ASA’s monthly newsletter provides updates about Society activities and programs, legislative actions, practice issues and specialty developments.

- **Podcasts**: Plug in and stay informed with the ASA Monitor podcast program. Recordings feature experts in their respective fields discussing the latest science and information on subjects ranging from physician burnout to the growing discipline of palliative care – all in the time it takes to drive to work.

- **asahq.org**: Your #1 resource for everything you need in anesthesiology. Visit asahq.org anytime, anywhere from any device.

EDUCATION & PUBLICATIONS

ASA’s educational offerings help you to improve patient safety, quality and practice performance. Developed and extensively reviewed by practicing physician anesthesiologists, ASA courses help you fulfill your learning goals. New and exciting education offerings include:

**Anesthesia SimSTAT**

The benefits of simulation anesthesia education are now delivered in a virtual online environment available anytime, anywhere. Guided by ASA clinical education expertise in conjunction with CAE Healthcare’s simulation expertise, a series of modules are being developed jointly to assist learners with improved performance in the management of anesthesia emergencies. Learn more at: asahq.org/simulation

The ASA® My Learning dashboard asahq.org/mylearning offers real-time curriculum progression and reporting that makes tracking learner progress simple. With a quick glance, you can easily determine course completion, compliance, competencies and certifications.

**ASA Monitor**

Established in 1938, the ASA Monitor is one of the most widely read anesthesiology-related publications in the world, with a circulation of approximately 50,000. The ASA Monitor offers the most relevant industry-related news, scientific and technical information, and the latest in advocacy. asamonitor.org

**Anesthesiology® journal**

The world leader in peer-reviewed anesthesiology research, Anesthesiology is committed to publishing and disseminating the highest quality work to inform daily clinical practice and transform the practice of medicine in our specialty. Benefit from articles covering 30 specific subject areas, email alerts and access to articles on your smartphone. The Anesthesiology journal impact factor is 6.168, making it the highest-ranked publication among anesthesiology journals. Find even more valuable content online by accessing the journal at: anesthesiology.org
ANESTHESIOLOGY® annual meeting

Join us for the premier anesthesiology educational event in the world. ANESTHESIOLOGY attracts upwards of 15,000 attendees from more than 90 countries to grow, share and network. Learn about the latest science and technologies in the specialty while engaging with subject matter experts and world-renowned speakers. With nearly 600 education sessions, 12 clinical tracks, 300 exhibiting companies, 1,200 abstract e-posters and 1,100 medically challenging cases, ANESTHESIOLOGY offers something for everyone. Learn more at: asahq.org/annualmeeting

ANESTHESIOLOGY® OnDemand

For the first time, you can bring home the world-class education presented by thought leaders in the field with ANESTHESIOLOGY OnDemand. With approximately 450 hours of presentations, ANESTHESIOLOGY OnDemand holds the distinction of being the most comprehensive accredited program available for health care professionals in anesthesiology.

This new exciting offering includes:

- Educational Sessions
- Self-Study Program
- Problem-Based Learning Discussions
- Refresher Course Lecture Summaries

LIVE LEARNING

For a full list of ASA meetings, please visit: asahq.org/meetings

Future Dates
October 21-25, 2017
Boston, MA

NEW! Arrive early and attend International Forum on Perioperative Safety & Quality 2017

October 13-17, 2018

January 25-28, 2018
New Orleans, LA

January 17-20, 2019
Las Vegas, NV

ASA My Meeting app

Navigate meetings with ease while gaining immediate access to critical meeting information with the ASA My Meeting app. Available in the App store and Google Play.
PSH Portfolio

The Perioperative Surgical Home is a patient-centric, team-based model of care created by leaders engaged with the American Society of Anesthesiologists to help meet the demands of a rapidly approaching health care paradigm that will emphasize value, patient satisfaction and reduced costs. ASA developed the PSH Portfolio to meet the needs of every facility no matter where they are in the implementation process.

A comprehensive suite of services, resources and tools that help you deliver team-based care through education, consultation, engagement and economics.

PSH Learning Collaborative

Organizations from across the country come together for a two-year period to learn from each other and subject matter experts to prepare for implementation of the PSH and to optimize performance post implementation.

The PSH model of care addresses the regulatory pressures providers are faced with to deliver value-based care. To facilitate the adoption of this model, ASA has established the PSH Learning Collaborative.

The PSH Learning Collaborative, a two-year program, offers two participation options:

- **Core Collaborative** – Focuses on learning, building capabilities and preparing for implementation
- **Advanced Cohort** – Includes all the benefits of the Core Collaborative and focuses more heavily on implementation and performance optimization

To be notified when registration opens for the 2018-2020 program tentatively scheduled to launch in October 2018, please email psh@asahq.org.

NEW – PSH Consult

A customized approach to care redesign. Assess your organization’s strengths and opportunities for further development in the context of your PSH initiatives, whether they are currently under development or already underway.

Our customized approach provides your PSH team with critical information, evidence-based strategies, and practical tools to navigate the transition to value-based perioperative care delivery and payment models successfully. Specifically, the PSH Consult will help your organization:

- Identify and educate key leaders and stakeholders
- Assess capabilities and identify opportunities for further development
- Develop a prioritized action plan with supporting resources

Learn more at: asahq.org/i2

Your Practice

Take your practice to the next level with PSH, quality measurement and practice management resources.

INSIGHTS + INNOVATIONS’ 2017
August 25-27 | Huntington Beach, CA

A new conference which has been designed to provide its participants:

- Information about the current regulatory and legislative environment
- Creative and innovative solutions to address issues participants may experience on their health care redesign journey
- Opportunities to contribute to the journey of others by sharing their own experience, and
- Practical and useful tools that you can immediately use

Learn more at: asahq.org/i2

QUALITY & PRACTICE MANAGEMENT

Quality measurement and reporting continue to be areas of great focus in health care. As the health care environment changes, physician anesthesiologists and their practice administrators face growing challenges. ASA offers members and their quality and practice administrators a wide variety of resources designed to help successfully manage an anesthesiology practice, including:

• Standards and Guidelines: Access the most current standards, guidelines, statements and practice parameters that are based on the most up-to-date scientific evidence.

• Practice management resources: ASA offers a variety of tools, such as billing and coding resources, to help you strengthen your practice’s performance. The Relative Value Guide® and CROSSWALK® coding products enable you to get paid appropriately for your services.

NATIONAL ANESTHESIA CLINICAL OUTCOMES REGISTRY® (NACOR®)

NACOR provides robust reporting and analytics with self-service reporting capabilities for practices, as well as customizable dashboards for visualizing data for local needs. NACOR uses the latest technology, including increased data validation and quality checks, as well more opportunities for collaboration with other registries.

Explore the power of NACOR

• New intuitive interface
• Faster and more automated support
• Continued support of additional core AQI functionality
• Continuing evolution

ASA® QUALITY REPORTING

ASA offers two quality reporting options in 2017: Qualified Clinical Data Register (QCDR) and Quality Reporting (QR). Both of which can help practices meet requirements for the Centers for Medicare & Medicaid (CMS) Physician Quality Reporting System (PQRS) program. QCDR and QR use the National Anesthesia Clinical Outcomes Registry (NACOR) and are valid options for reporting PQRS in 2017. Select from quality measures that are relevant to your specialty. Participation is available to ASA members at no additional cost. Learn more at: asahq.org/qualityreporting

HAVING TROUBLE SUBMITTING DATA

For practices that are struggling pulling data from their systems for submission to NACOR for QCDR or QR reporting, ASA has collaborated with ePreop to provide proven data collection tools and offer Quality Concierge™.

Quality Concierge easily connects with your Electronic Health Record (EHR), AIMS and billing systems to assist you with gathering and submitting data to NACOR. Learn more at: asahq.org/concierge
Your Specialty

Make an impact by participating in advocacy efforts at both the state and national levels.

ADVOCACY

ASA focuses on issues of critical importance at the federal level and supports state component efforts at the local level. Members actively participate in advocacy efforts by contacting federal and state lawmakers, providing comments to federal and state regulatory agencies, attending the annual LEGISLATIVE CONFERENCE, and more. Some of ASA’s top priorities are focused on protecting patient safety by ensuring physicians deliver physician-led anesthesia care, and advocating for appropriate payment for anesthesia and pain care services.

- **Representation in Washington**: ASA has a dedicated office in Washington, D.C., devoted to federal and state legislative, quality and regulatory issues. ASA lobbyists maintain relationships with key members of the U.S. House of Representatives and U.S. Senate, and work on a daily basis to deliver the Society’s legislative messages to Capitol Hill. Staff also works within the federal agencies to advance ASA’s regulatory priorities. ASA also helps place ASA-member physician anesthesiologists on important federal and state advisory committees and boards.

- **FDA and Washington Alerts**: Changes in health care reform make it challenging to stay current about legislative and policy changes. Members stay informed and have their finger on the pulse of legislation impacting their specialty through timely alerts.

- **Grassroots Advocacy Resources**: The ASA Grassroots Network allows physician anesthesiologists to take action and engage with their elected officials. The Grassroots Advocacy Guide provides all of the information ASA members need to be effective advocates for the specialty. Joining the ASA Grassroots Network is easy and can be done online at: [grassroots.asahq.org](http://grassroots.asahq.org)

- The **LEGISLATIVE CONFERENCE** is the specialty’s largest meeting that focuses on state and federal legislative, regulatory and political issues impacting ASA and anesthesiology. This member-exclusive opportunity prepares ASA members to engage effectively in the legislative, regulatory and political processes, and culminates with meetings on Capitol Hill between ASA members and their federal lawmakers.

ASAPAC

ASAPAC has been the largest physician political action committees (PAC) and one of the most active PACS in the country since 2009 according to the Federal Election Commission. Established in 1991, ASAPAC is the political component of ASA – a separate fund within ASA devoted solely to permitting anesthesiology to participate in elections involving the U.S. House of Representatives and U.S. Senate. ASAPAC, depending on the state, is also able to participate in state and local elections. ASAPAC has helped elect and reelect hundreds of lawmakers who understand anesthesiology issues.
PUBLIC RELATIONS AND PUBLIC AFFAIRS

ASA’s Public Relations Department conducts strategic communications and public affairs activities to increase awareness of ASA, the specialty and patient-centered, physician-led care. Core programs include the When Seconds Count® educational endeavor to support advocacy efforts, and professional and public outreach initiatives focused on consumer and trade media, social media and website content.

• **When Seconds Count (WSC®) Educational Endeavor:** Using an integrated approach, ASA and its members communicate the importance of physician anesthesiologists and physician-led care to key audiences including federal and state policymakers, hospital administrators, physician colleagues and the public. Resources include a WSC member toolkit, WSC website, the Leadership Spokesperson Training Program, and physician and patient stories and videos. Activities include social media engagement, media relations outreach, digital and traditional advertising, promotion of Physician Anesthesiologists Week and other priority ASA issues. [asahq.org/whensecondscount](http://asahq.org/whensecondscount)

• **Professional and Public Outreach Initiatives:** Year-round communications activities engage members, decision-makers and the public, and share critical information through digital advertising, social media marketing and media relations. Tactics include promotion of:
  - Anesthesiology journal articles, Anesthesia Quality Institute and Health Policy Research updates
  - Scientific research presented at the ANESTHESIOLOGY annual meeting
  - Campaigns on public educations topics such as anesthesia patient safety and pain management
  - Patient education brochures on topics including seniors and anesthesia and preparing for surgery
  - Perioperative Surgical Home initiatives
RELATED ORGANIZATIONS

The following organizations are supported by ASA as they assist with advancing the profession in and around the world.

Anesthesia Foundation
anesthesiafoundation.org
The Anesthesia Foundation is a non-profit organization founded by a group of concerned anesthesiologists in 1956 to provide low-interest loans to residents in anesthesiology who are in need of financial assistance. The goals and purposes of the Foundation are:

- To support young physicians in their choice of anesthesiology as a specialty
- Support specific projects that enhance the specialty of anesthesiology and are not supported by other agencies
- Recognize and preserve the American heritage of anesthesiology.

ASA Charitable Foundation
asacharity.org
Founded in 2011, the ASA Charitable Foundation supports the charitable endeavor of ASA members to improve health and medical care in underserved communities, increase access to quality anesthesia care and support the anesthesiology profession’s response to disasters and health crises. Current initiatives:

- Lifebox (pulse oximeter) project
- Hope For The Warriors® program
- ASA Global Scholars program

Anesthesia Patient Safety Foundation
apsf.org
The APSF’s mission is to continually improve the safety of patients during anesthesia care by encouraging and conducting:

- Safety research and education
- Patient safety programs and campaigns
- National and international exchange of information and ideas

Since 1987, APSF has awarded 106 grants totaling $9.5 million.

Foundation for Anesthesia Education and Research (FAER)
faer.org
The Foundation for Anesthesia Education and Research (FAER) is a premier national foundation providing guidance and resources to physician investigators and medical educators focusing on anesthesia-related issues in the sciences of clinical practice and disease biology. FAER has awarded over $31 million in research grants since 1986.

- Mentored Research Training Grants
- Research Fellowship Grants
- Research in Education Grants

Wood Library-Museum of Anesthesiology
woodlibrarymuseum.org
The Wood Library-Museum of Anesthesiology (WLM) is the premier library and museum devoted to the history of the specialty. As its mission, the WLM collects and preserves literature and equipment pertaining to anesthesia and makes available to the anesthesiology community, others in the medical profession and the public the most comprehensive educational, scientific and archival resources in anesthesiology.
